Fundamentals Applications 4th Edition Solutions and Mass Transfer, 8th Edition | Wiley The density of the sphere is ρ , the specific heat is c , and the length is L . The area of the sphere normal to the direction of heat transfer at any location is $A = 4\pi r^2$ where r is the value of the radius at that location. Note that the heat transfer area A depends on r in this case, and thus it varies with location. Heat and Mass Transfer Fundamentals and Applications 5th ... Covers the complete discipline of heat and mass transfer in relation to engineering thermodynamics and fluid mechanics. Publishes results from basic research as well as engineering applications such as heat exchangers, process and chemical engineering. Covers experimental techniques as well as analytical and computational
